INSPECTA GROUP LTD

Asset Integrity Management & Well Services

We have developed into a leading provider of Asset Integrity Management Services across the region

Our Story so far...

Inspecta Group was founded in 1991 by Mr. Mahmoud Alshehry in Roanoke, Virginia, USA, initially operating as a specialized engineering consultancy providing welding supervision, repairs, Non-Destructive Testing (NDT), and quality assurance services.

In 1995, the Group established its headquarters in Manama, Kingdom of Bahrain by strengthening its presence across the Oil & Gas, Petrochemical, and Power sectors throughout the Gulf and MENA region.

Today, Inspecta Group is a leading multinational provider of Asset Integrity Management Services (AIMS), delivering Risk-Based Inspection (RBI), Advanced Non-Destructive Testing (ANDT), Fitness-for-Service (FFS), Remaining Life Assessment (RLA), Integrity Technologies and QA/QC solutions.

Through its network of offices across the United Kingdom, Bahrain, Algeria, Egypt, Saudi Arabia, Qatar, Oman, Uganda, Uzbekistan and Kazakhstan. The Group serves major industrial clients throughout the Middle East, Europe, Central Asia, and Africa.

Dear All,

Since 1991, Inspecta Group has been dedicated to delivering trusted Asset Integrity Management Solutions (AIMS) that safeguard the safety, reliability, and performance of industrial assets worldwide.

With decades of expertise across the Oil & Gas, Power, Petrochemical, Utilities, Mining, Maritime, Rail, and Aviation sectors we combine experienced professionals, advanced technologies and internationally recognized standards to help our clients optimize asset performance, reduce operational risk and maintain regulatory compliance.

Our commitment to quality, innovation, and safety is reflected in every project we undertake and reinforced by internationally recognized certifications, including ISO, IRATA, LEEA, and IMCA.

I extend my sincere appreciation to our clients, partners & dedicated team for their continued trust and support. We look forward to strengthening these partnerships & delivering solutions that contribute to safer, smarter and more sustainable operations.

With warm regards,

Mahmoud Al Shehry
B.Sc. MET (1977), ASNT Level III (1989)
Founder & President

ACCREDITATION & MEMBERSHIPS

Inspecta Group is holding Certifications and Memberships from ISO 9001 (Since 2004), ISO 14001 & ISO 45001 Certification, LEEA (Lifting Equipment Engineers Association, KSA), ISO IEC 17020 from both ALGERAC (Organisme Algérien d'Accréditation, Algeria)

The Inspecta Group has been operating under a Quality Management System for more than three decades, ensuring a quality service is provided to our clients across our operations. Inspecta Group also operates under corporate level HSE Management System & Secure IT Policy that provides a systematic approach to the implementation and management of a successful health and safety program within the company

GLOBAL ASSET INTEGRITY INSPECTION SPECIALTY SERVICES

OUR SPECIALTY ASSET INTEGRITY INSPECTION SERVICES WHICH ARE TAILORED TO THE PETROLEUM, HYDROCARBON, PETROCHEMICAL & POWER INDUSTRIES

ON-STREAM / OFF-STREAM IN-SERVICE INTEGRITY INSPECTIONS INCLUDES

ADVANCED / CONVENTIONAL ANDT/CNDT INSPECTION & TESTING COMPRISING THE FOLLOWING TECHNIQUES

- ULTRASONICS - AUT, TOFD, & PAUT CORROSION MAPPING ON PIPING, PRESSURE VESSELS & TANKS
- LONG RANGE GUIDED WAVE ULTRASONIC TESTING LRUT ON PIPELINES AND PIPING
- TUBE INSPECTION OF HEAT EXCHANGERS, BOILERS & COOLERS – IRIS, ECT, RFECT, NFT & MFL
- CUI - CORROSION UNDER INSULATION SURVEY ON PIPES, VESSELS & STRUCTURES – PEC
- REPLICA TESTING FOR FURNACE AND HEATERS TUBES
- TANK INSPECTION & CORROSION MAPPING – MFL / UT SCANNING
- RADIOGRAPHY, CRT & SCAR & DIGITAL RT
- CRACK DETECTION & SURVEY – ACFM
- AET - ACOUSTIC EMISSION TESTING ON TANKS, PRESSURE VESSELS

ABSEILING (ROPE ACCESS) INSPECTION ON REMOTE OR INACCESSIBLE LOCATIONS

PIPELINE INTEGRITY INSPECTION SERVICES

- ILI - IN-LINE INSPECTION FOR PIPELINES - PIGABLE & NON PIGABLE
- CIPS -CLOSED INTERVAL POTENTIAL SURVEY
- DCVG -DIRECT CURRENT VOLTAGE GRADIENT
- LRUT - LONG RANGE ULTRASONIC TESTING ON PIPELINES, TUBULAR STRUCTURES & ROAD CROSSINGS

ASSET INTEGRITY ENGINEERING SERVICES

- RBI -RISK BASED INSPECTION MANAGEMENT
- FFS-FITNESS FOR SERVICES
- RLA -REMNANT LIFE ASSESSMENT
- PROVISION OF API CERTIFIED API PLANT INSPECTORS & ENGINEERS
- ATEX SURVEYS

PROVISION OF TQM, QA/QC, CNDT, PWHT AND CP SERVICES FOR EPC/FABRICATION PROJECTS

We are a multinationals business group with an extensive international network spanning over ten countries. Our global reach provides access to expert knowledge & specialized skills from professionals worldwide with a seamless connection between our offices and industry experts, we offer a full range of integrated services, ensuring efficiency, consistency, and excellence across all our operations.

RIGS AND OCTG TUBULARS INSPECTIONS

MARINE & SUBSEA INSPECTION SERVICES INCLUDES

- SUBSEA INSPECTION CP, UT, FMD, ACFM & ROV INSPECTION SERVICES

REGULATORY INSPECTION SERVICES

- PRESSURE EQUIPMENT (ESP)
- COMPLIANCE WITH ALGERIAN LAWS, THE NATIONAL AND INTERNATIONAL STANDARDS (IE; PED, ASME ETC.)
- PERIODIC INSPECTION OF BOILERS, TANKS, AND PIPING SYSTEMS
- VERIFICATION OF SAFETY VALVES, PRESSURE GAUGES, AND INTEGRITY UNDER OPERATING CONDITIONS
- DOCUMENTATION TRACEABILITY AND CONFORMITY REPORTS

LEI - LIFTING & HANDLING EQUIPMENT (APL)

- INSPECTION OF CRANES, HOISTS, FORKLIFTS, AND LIFTING ACCESSORIES
- LOAD TESTING, STRUCTURAL INTEGRITY CHECKS & SAFE WORKING LOAD VALIDATION
- COMPLIANCE WITH BS 7121, ISO 9927, AND NATIONAL LABOR REGULATIONS
- CERTIFICATION AND TAGGING OF EQUIPMENT POST-INSPECTION

ELECTRICAL INSPECTION - APE

- ELECTRICAL INSTALLATIONS & EQUIPMENT (APE)
- REGULATORY AUDITS OF INDUSTRIAL ELECTRICAL SYSTEMS AND SWITCHGEAR
- VERIFICATION OF GROUNDING, INSULATION RESISTANCE, AND PROTECTION DEVICES
- COMPLIANCE WITH IEC STANDARDS AND NATIONAL SAFETY CODES
- RISK ASSESSMENT AND PREVENTIVE MAINTENANCE PLANNING
